F60 - W7

The G60 W7 Projector is a high-performance device that combines a resolution of 1920 x 1200 and a brightness capacity of up to 7,000 lumens. This combination of resolution and brightness makes it an ideal option for any large event, both indoors and outdoors.

With a clear and detailed image quality, the G60 W7 will be a valuable addition to any production. Whether you're producing a live show, a corporate presentation, or a mapping event, the G60 W7 will help you convey your message in the most impactful way possible.

Elevate the quality and performance of your events with the G60 W7 Projector.

Avolites Infinity RX8

Award-winning, the AI Infinity Server is the perfect choice for the most demanding video shows. The Rx8 features EDID programming and WUXGA (1920x1200) outputs. Each one of them is digitally amplified to provide you with a previous and production output in DVI.

The back panel is full of I/O connectors, including LTC timecode input, 2 Gigabit Network ports to connect to Arnet on the network, MIDI in and output ports, 4 DMX lines, audio I/O, Genlock - essential for TV projects, and 2 network connections that ensure vertical connection between multiple units.

Moreover, it has a 7-inch front screen that displays a 3D viewer. This allows you to have control over the network throughout the show in an integrated and intuitive way, regardless of the number of outputs you need.

Choose the AI Infinity Server for your next video projects and make your shows a success.
